Program Description: Upward Bound Math Science at Boston University is a program serving 50 Boston and Chelsea Public High School Students by providing academic instruction, tutoring, social enrichment and personal support. Students participate in both a six-week summer residential program and an after school component. For more information on Upward Bound Math Science, go to www.bu.edu/ubms.

Position Available: Computer Science Instructor for Summer Program

Description: The Computer Science instructor is responsible for teaching five sections of Computer Science during a six-week summer program for college-bound Boston Public High School students. Each section meets for fifty minutes on Thursdays and Fridays on the Boston University campus. The instructor is expected to develop and implement course curriculum, provide written evaluations of students’ performance, monitor one afternoon of study hall, and attend weekly staff meetings.

The position is part time. Program dates are June 24, 2012 through August 3, 2012. A one day orientation/training will take place the week of June 18 (date TBD). Summer Awards Ceremony (teacher attendance required) will take place the evening of August 2.

Educational Requirements: Minimum Bachelor’s degree (Masters preferable) in Computer Science, Information Technology, Engineering, Science Education or Liberal Arts with a computer science concentration and certification or teaching experience in appropriate content area.

Required Experience: Minimum two years’ teaching experience in Massachusetts or other comparable school system. Applicants must possess an understanding of the needs of disadvantaged youth and creativity to respond to student learning needs with innovative ideas and approaches. Excellent interpersonal skills are essential.

Salary: $23 an hour. Instructors are compensated for classroom instruction, study hall, staff meetings and attendance at the award ceremony. In addition, teachers are paid 0.5 hours preptime for each 1.0 hour of classroom instruction.
