Analyst Programmer – USWD006 - Cambridge, MA

Abcam, a successful and growing bioscience company, is a web-based business specializing in the production and sale of antibodies and related products to scientific research organizations. Our head office is based in Cambridge, UK and we have offices in Cambridge, USA; Tokyo, Japan and Hong Kong, China.

You will thrive within a team of talented developers and testers using agile project methodologies such as SCRUM and DSDM on a cutting edge ASP.NET MVC C#4.0 e-commerce platform. You will also welcome the challenge of maintaining and improving our legacy ColdFusion based system. Iteratively delivering best-in-class systems focused on end-user experience ought to be your aspiration.

We are looking for programmers with one to two years of commercial experience to join the Application Development Team. In the role you will work on your own or in a dedicated team of developers working to deliver a suite of bespoke information systems to support Abcam's development and growth.

Required skills:
- SQL (MS SQL Server preferred)
- HTML + JavaScript + CSS
- C# (preferred) or one of the following: Java, C++, or PHP
- Excellent written and verbal communication skills including the ability to explain proposed solutions to non-technical colleagues

Desired skills:
- Agile project management experience using SCRUM or DSDM
- NHibernate or similar ORM tool
- Experience with Service Oriented Architecture (SOA)
- ColdFusion (will train if not experienced)
- jQuery or similar JavaScript library

Consideration will be given to graduates from a computer, science or math background who can demonstrate their aptitude in programming in the areas outlined above.

Our culture is one that empowers individuals, with responsibility given at an early stage. We place great emphasis on knowledge and experience. The working environment is fun but intense, with everybody working together as a team to deliver great service and the best products to our customers. In addition to competitive salaries we can offer an attractive flexible benefits package which includes a profit-share scheme and share options.
